

# LUNG MODEL WITH HEART, LARYNX AND DIAPHRAGM

|    | English                          |
|----|----------------------------------|
| A  | LARYNX                           |
| 1  | Hyoid bone                       |
| 2  | Thyroid cartilage                |
| 3  | Annular cartilage                |
| 4  | Epiglottis                       |
| 5  | Triquetral cartilage             |
| 6  | Thyroid membrane                 |
| 7  | Thyrohoid muscle                 |
| 8  | Cricothyroideus muscle           |
| 9  | Arytaenoideus transversus muscle |
| 10 | Arytaenoideus obliquus muscle    |
| 11 | Cricoarytenoid lateral muscle    |
| 12 | Ventriculus laryngis             |
| 13 | Superior thyroid artery          |
| 14 | Inferior thyroid vena            |
| B  | THYROID GLAND                    |
| C  | TRACHEA                          |
| 1  | Forked trachea                   |
| 2  | Right principal bronch           |
| 3  | Right vena subclavia             |
| 3a | Right subclavian artery          |
| 4  | Right common carotid artery      |
| 5  | Right vena jugularis interna     |
| 6  | Right vena brachiocephalica      |
| 7  | Trunk of brachiocephalica artery |
| 8  | Left pulmonary artery            |
| D  | OESOPHAGUS                       |
| E  | LUNGS                            |
|    | Right lung                       |
| a  | Superior lobe                    |
| b  | Middle lobe                      |
| c  | Inferior lobe                    |
|    | Left lung                        |
| d  | Superior lobe                    |
| e  | Inferior lobe                    |
| F  | HEART                            |
| 9  | Left ventricule                  |
| 10 | Aorta                            |
| 11 | Aortic valve                     |
| 13 | Left atrium                      |
| 14 | Left auricula cordis             |
| 15 | Mitral valve                     |
| 16 | Right ventricule                 |
| 17 | Pulmonary artery                 |
| 18 | Pulmonary valve                  |
| 19 | Right atrium                     |
| 20 | Right auricula cordis            |
| 21 | Superior vena cava               |
| 22 | Inferior vena cava               |
| 23 | Tricuspid valve                  |
| 24 | Pulmonary vein                   |
| G  | DIAPHRAGM                        |
