## 2016 Student Senator Elections – Candidate Profile

### Junpeng Chen

#### **How did you become interested in running for College Senate?**

To run for college senate is an immense challenge for me, but I would take it because I want to do substantive things for society, even though it is not the big one, at least it is our college society. Moreover, I like to analyze problems, and to solve them so that I will try to use a best solution for any issue.

#### **What are some basic principles that would guide your leadership as a member of the College Senate?**

I will bring what I learn from my economy, law, philosophy and other courses to run the college senate. My principles are justice, balancing, and treat everyone fairly. I understand that all of us are independent individuals in physical world, but basically we are the same in a deeper level.

#### **Why should a student vote for you to represent them?**

I think I will be supported by the students who believe my principles. I will fairly treat all students, and solve issues based on moral theories. I am a person who love to learn social science. In other words, I learned how to adjust inequality in a society from economic, and how to make right judgement in different issues from law and philosophy. I would like to bring a better society for any of us.
