2016 Student Senator Elections – Candidate Profile

Md Hamidur Rahman

How did you become interested in running for College Senate?

I was first interested in running for College Senate in my freshman semester. I saw that other freshmen were nervous and confused about college. College Senate is the best way to reach students and help them achieve their goals and make their college journey better.

What are some basic principles that would guide your leadership as a member of the College Senate?

I am very committed to the principles of democracy. College students are not just entitled to a good education. I believe that students also have the right to have their voices heard and their concerns addressed. As a College Senator, I would represent those voices and concerns.

Why should a student vote for you to represent them?

Students should vote for me because I am easy to talk to and I understand their challenges and the kind of environment they are looking for on campus. I am passionate about creating learning communities, representing club members' concerns and creating networking opportunities for students who want to join the military. I would create cultural events and college fairs that would help immigrant students' cross barriers and participate more fully in their college experience.
