

LaGuardia Community College

2016 Student Senator Elections – Candidate Profile

Khandaker Hossain Khan

How did you become interested in running for College Senate?

My interest in this position emerged from my graciousness to LAGCC for helping me get back on track. I have been looking for ways to give back ever since then. I have done a great job as a Peer Advisor, GED tutor for ACE department and a My First Day orientation leader. I have come to the realization that not all students here feel the same way which is why I want to help.

What are some basic principles that would guide your leadership as a member of the College Senate?

Some the principles that I hold dear and will use as a student senator will be perseverance, and hard work. These 2 principles helped me turn my life around and will aid me in doing the best job possible as a student senator. Perseverance helped me turn into a good student from one on academic probation, hard work is what leads to success.

Why should a student vote for you to represent them?

I share the same issues with students and would like to help tackle them. I want to improve upon the transforming community college not only for myself but for the entire student body as well as future LaGuardians. By emphasizing the importance of building a strong and positive bond between the students, faculty, staff and administration in order to reach their full potential academically and professionally. I want students to reach their full potential here as well as after they leave LAGCC. Let's make this happen.
