Queensborough	0.9#	1.3	4.3	3.2	2.1

Note: Predicted rates are based on student characteristics such as Pell status and college admissions average (CAA). Actual rates that are significantly higher than predicted rates indicate that a college is graduating more students than expected, given the socio-economic challenges of the students it serves. "#" indicates that the actual rate is not significantly different from the predicted rate (estimated at the 5% confidence level).

Starting in 2016, comprehensive colleges were excluded from this performance adjusted analysis because students at comprehensive colleges are more likely to transfer into baccalaureate programs without first earning an associate degree than students in community colleges.

Figures for previous years have been revised slightly to reflect better measurement of some variables used to predict graduation rates.

## Pillar: College Readiness

*One of the best predictors of college success is entering prepared for college-level studies. CUNY will work with its partners to help ensure that a larger number of entering students are prepared, starting with early education and assisting them up to and through high school.*

**Goal 1: CUNY will strengthen its partnership with the city’s schools to ensure more high school graduates are college ready, and, for those who are not, CUNY will improve the effectiveness of its remediation programs.**

## Pillar: College Readiness

*One of the best predictors of college success is entering prepared for college-level studies. CUNY will work with its partners to help ensure that a larger number of entering students are prepared, starting with early education and assisting them up to and through high school.*

**Goal 1: CUNY will strengthen its partnership with the city’s schools to ensure more high school graduates are college ready, and, for those who are not, CUNY will improve the effectiveness of its remediation programs.**

## Pillar: College Readiness

*One of the best predictors of college success is entering prepared for college-level studies. CUNY will work with its partners to help ensure that a larger number of entering students are prepared, starting with early education and assisting them up to and through high school.*

**Goal 1: CUNY will strengthen its partnership with the city’s schools to ensure more high school graduates are college ready, and, for those who are not, CUNY will improve the effectiveness of its remediation programs.**

Note: ASAP enrollment is provided each semester by ASAP partner colleges and verified in CUNYfirst. Students are considered officially enrolled in ASAP if they are enrolled in the program and in classes at the college as of the census date each semester. ASAP accepts students as first-time freshmen or as continuing/transfer students with up to 15 credits. Credits earned while in high school prior to matriculation do not count toward this credit limit. Total enrollment for the academic year represents the unique number of students served by ASAP each year. It is calculated as the sum of the total fall enrollment plus the students who newly joined ASAP in the spring. Students can remain enrolled in ASAP for up to three years at all partner colleges. At the College of Staten Island and Medgar Evers College, students may be eligible to remain in ASAP for a fourth year to complete their bachelor's degree if they meet the criteria for this fourth year as set by each college. Percentage is based on the number of students with known test status.

The Graduate Center counts reflect scholarship of Central Line faculty only. Annual averages are computed as the number of works reported for a given calendar year divided by the number of faculty required to report (full-time professorial faculty who were active in both the spring and fall terms). University averages reflect scholarship and creative activity at the graduate and professional schools. The weighted 3-year rolling average is calculated as Calendar Year (CY)\*0.5 + (CY-1)\*0.3 + (CY-2)\*0.2. Data for all years are reported using the current methods and a single data source.

Note: Scholarship includes books authored, book chapters, conference presentations published as proceedings, peer reviewed journal articles, peer reviewed technical reports, curated art shows, direction/ choreography/ etc., music composition published/performed, play or screenplay produced/performed, poem or short story published. The Graduate Center counts reflect scholarship of Central Line faculty only. Annual averages are computed as the number of works reported for a given calendar year divided by the number of faculty required to report (full-time professorial faculty who were active in both the spring and fall terms). University averages reflect scholarship and creative activity at the graduate and professional schools. The weighted 3-year rolling average is calculated as Calendar Year (CY)\*0.5 + (CY-1)\*0.3 + (CY-2)\*0.2. Data for all years are reported using the current methods and a single data source.

Note: Percentage is the total number of student (instructional) FTEs in undergraduate courses taught by full-time faculty divided by the total number of student (instructional) FTEs in all undergraduate courses for both the fall and spring semesters of a given academic year.

Instruction by full-time professors (all ranks including chairs), instructors and lecturers is counted as instruction delivered by full-time faculty.

Instruction in winter session sections is included only for full-time faculty whose teaching is part of their contractual workload (in which case, instructional FTEs are added to both the numerator and the denominator). Other winter session sections are excluded. Instruction is credited to the faculty member's college of appointment except for those appointed to the Graduate Center, the School of Journalism, and the Law School; their teaching is credited to the college where instruction took place. College Now sections are excluded. Senior College Averages for FY 2013-15 have been updated because the comprehensive college break has been discontinued.
