# How **math** is **CHANGING** the **world**

**A TALK BY DR. MICHAEL DORFF  
OF BRIGHAM YOUNG UNIVERSITY**

**WEDNESDAY, FEBRUARY 5  
3:30- 4:30 PM, E111**

Have you ever been asked “**What can you do with a degree in math?**” Besides teaching, many people are clueless on what you can do with strong math skills. In this talk, we will talk about some of the exciting things mathematicians in business, industry, and government are doing in their careers and how these things are **changing the world**. And we will reveal the three things that recruiters say every math student should do to get a job.
