NEW YORK INSTITUTE OF TECHNOLOGY

January 11, 2022

In order to address the continuing educational needs of its Nursing graduates, LaGuardia Community College ("LaGuardia") enters into an agreement with iDesignEDU, LLC ("iDesign") on behalf of its partner, the New York Institute of Technology ("New York Tech").

New York Tech is committed to creating the most cost-effective and flexible RN to B.S. in Nursing degree in New York, while delivering the highest quality nursing education backed by CCNE accreditation. The new online RN to B.S. in Nursing program launched in November 2020 and allows for nurses to complete their bachelor's degree in as little as twelve months.

With this agreement, New York Tech will offer a preferred tuition rate to nursing students from LaGuardia who are admitted to the program, at a rate of \$8,000 for the 12 core nursing curriculum courses (31 total credit hours for a rate of \$258.06/credit hour). The preferred tuition rate will also be extended to family members of LaGuardia students who hold a valid nursing license and are admitted to the RN to B.S. in Nursing program. This partnership underscores LaGuardia's commitment to the professional growth and development of its nursing graduates.

LaGuardia will take no part in the application or admissions process for the RN to B.S. in Nursing program, which will solely be the domain of New York Tech. Additionally, LaGuardia will not be party to the financial or academic relationship between an admitted or enrolled student and New York Tech regardless of whether that person is a LaGuardia student or family member of a student. The affiliation agreement between LaGuardia and New York Tech simply extends the opportunity for a preferred tuition rate to LaGuardia nursing students or family members of students.

To facilitate access to, and interest in, New York Tech's new RN to B. S. in Nursing program, LaGuardia agrees to designate a staff member to act as program coordinator to communicate this new partnership internally to students via email and in-person announcements. In addition, this program coordinator will help facilitate regular in-person or digital interactions, where New

York Tech representatives can meet prospective students face to face to share information and answer questions.

Upon confirmation of internal communication of the program and partnership, nurses and family members of students will have access to the preferred tuition rate. The term of this agreement shall be for one (1) year and shall automatically renew for successive periods of one (1) year, until terminated by either party, with or without cause, upon sixty (60) days prior written notice. Termination of this agreement will not affect the admission status of currently enrolled students.

^{*}Due to block transfer / waived courses and having passed NCLEX, students will be able to transfer in more than 66 credits.

Degree Completion Plan for LaGuardia Community College

New York Institute of Technology RN to BS in Nursing

Course No.	Course Name	Credit
	Liberal Arts – 8 CREDITS	
MATH 135	Fundamentals Precalculus I or advanced	4
CHEM 215	Bio-Organic Chemistry	4

In the instance that a student has obtained transfer credit for all the above courses, student will still need to take 6 liberal arts credits at New York Tech. New York Tech recommends FCWR 302 and FCWR 151.

REQUIRED COURSES FOR MAJOR – 31 CREDITS		
Must be taken at New York Tech		
ICBS 309	Anthropological Approaches to Health	3
NURS 320	Pathophysiology Concepts	2
NURS 322	Theoretical & Transcultural Concepts	2
NURS 325	Integrating Information Technology	2
NURS 415	Health Assessment w Lab	3
NURS 420	Community and Population Health	3
NURS 440	Nursing Research	3
NURS 450	Dynamics of Aging, Longevity	2
NURS 475	Leadership and Management	3
NURS 485	Nursing Capstone	2
	Liberal Arts Course (see note above)	3
	Liberal Arts Course (see note above)	3

Total Minimum Credits	121
Minus RN Credit Transferred/	
Waived by New York Tech*	
Total Credits remaining to be	
taken at New York Tech**	

^{*} Waived/transferred courses subject to change. Courses awarded credit / waived due to completion of associate degree in nursing, passing NCLEX, and obtaining active nursing license. Waived/transferred liberal arts courses are not listed on this document.

^{**}After student application is submitted and accepted, all student applications will go through an individual transcript review and receive a plan of study with all required courses listed.
