Dear La Guardia Community College Dean, Provost, and President,

Last year, during unprecedented crisis and pandemic, we embarked on a collaboration and partnership with the La Guardia Humanitarian Initiative. The students and supervising faculty showed support through several initiatives that included a fundraiser, program design for early childhood, and practicum hours for our internship program.

We are most grateful for the service and support provided to us, which helped displaced and disadvantaged children learn, grow, and thrive! We look forward to future opportunities for collaboration.

Warm regards,

Danielle De La Fuente
Founder & Executive Director
