

**THE CITY UNIVERSITY OF NEW YORK  
MULTIPLE POSITION SUMMER ASSIGNMENTS REPORTING FORM**

This form must be completed and submitted to the Department Chair by all full-time faculty, including full-time substitutes, prior to assuming their multiple position assignments during the annual leave period in the Summer. An updated form must be provided, should any changes occur.

[Statement of Policy on Multiple Positions](#)

Please read the Statement of Policy on Multiple Positions (with particular attention to Sections V and VII), which generally limits a full-time faculty member's assignments to a maximum of three-ninths (3/9ths) of his/her annual salary during the Summer. Note also that compensation for any single month during the summer may not exceed one-ninth (1/9th) of the faculty member's annual salary. A Summer Assignments Calculator is available to ensure accurate calculation.

The sole exception to the "three-ninths" rule is that, under carefully prescribed conditions, a college foundation may provide compensation that will cause the faculty member's total compensation from CUNY-related activities to exceed three-ninths of the annual salary.

\*Additional documentation is required for this exception.

<b>Name</b>		<b>Permissible Summer Compensation from CUNY</b>	<i>Annual salary</i>
