Introduction to Webreg

The Web Registration Module is an optional feature of XenDirect that offers an enhanced registration experience for your customers. It enables them to easily register for courses and make payments through a user-friendly interface directly on your existing website. This module is often referred to as "WebReg" by Xenegrade. By customizing the color scheme, adding your logo, and incorporating your text, each Web Registration website becomes unique to your organization.

With the Web Registration Module, there is no need for manual data entry or file transfers. All registrations made through this module are automatically recorded in XenDirect. You have full control over course availability, waiting lists, and active sessions within XenDirect. The module incorporates a secure shopping cart and online transaction system that ensures registration funds are directly deposited into your organization's merchant bank account.

You can access the Webreg by visiting the following page:

The screenshot displays the web registration search interface. At the top, there are navigation links for 'Continuing Education Website', 'LaGuardia Community College Website', and 'FH LAGUARDIA ACE'. The page header includes the LaGuardia logo and 'Continuing Education' text. A search bar is located in the top right corner. Below the header, there is a sidebar with a list of search options: Course Search, Category Search, Program Search, Information Sessions, Course Catalogs, Request More Information, and Scholarship Applications. The main content area features a 'SEARCH' section with a 'Last Viewed' list and a detailed 'Advanced Search' form. The 'Advanced Search' form includes fields for Keyword, Session, Category, Program, Day Of Week, and Start Date (with 'From Date' and 'To Date' sub-fields). There are 'Search' and 'Clear Search' buttons at the bottom of the form. The footer contains the text 'Powered by XenDirect © 2005-2023 Xenegrade ©' and links for 'Inquire', 'Contact Info', 'Privacy Policy', and 'Refund Policy'.
