# Navigating the User Interface: Exploring the layout and features of Xendirect

Xendirect is a comprehensive software solution designed to streamline and automate the administrative tasks and processes of educational institutions or organizations. It provides a centralized platform for managing course registration, student enrollment, attendance tracking, grading, financial management, and communication. With features like the Web Registration Module, XenDirect enables students to easily register and pay for courses online. It offers efficient tools for administrators and instructors to effectively manage their programs, track student progress, generate reports, and enhance overall operational efficiency.

The following are the three modules and how you can access them.
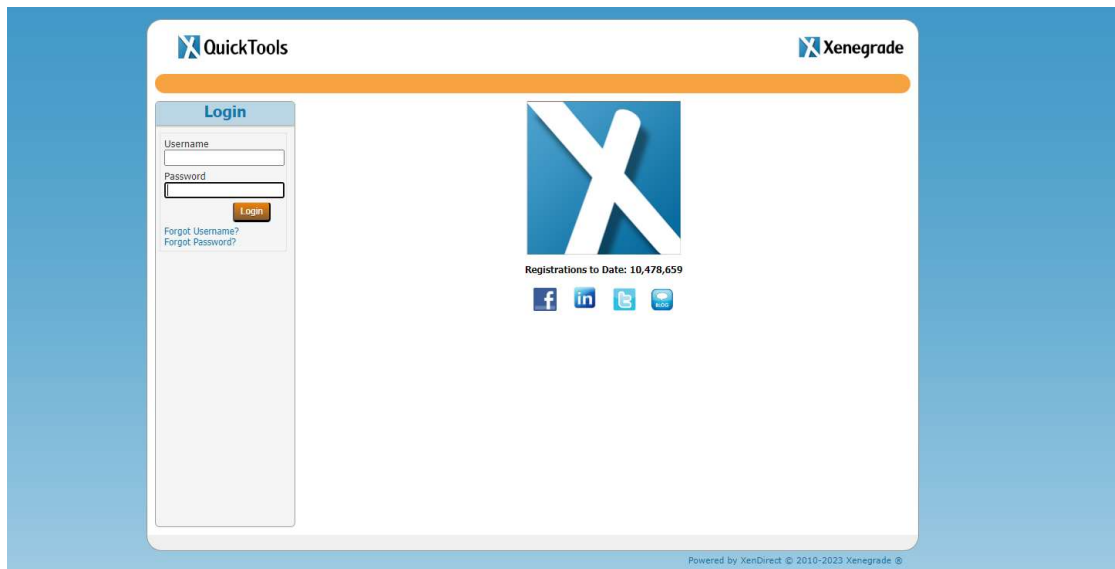

1. **Xendirect Administrator Module:**

Webpage: https://laguardia.xendirect.com/login

The Xendirect Administrator module offers a wide range of features including course management, student enrollment, attendance tracking, grading, financial management, and communication tools, all within a comprehensive and user-friendly platform.
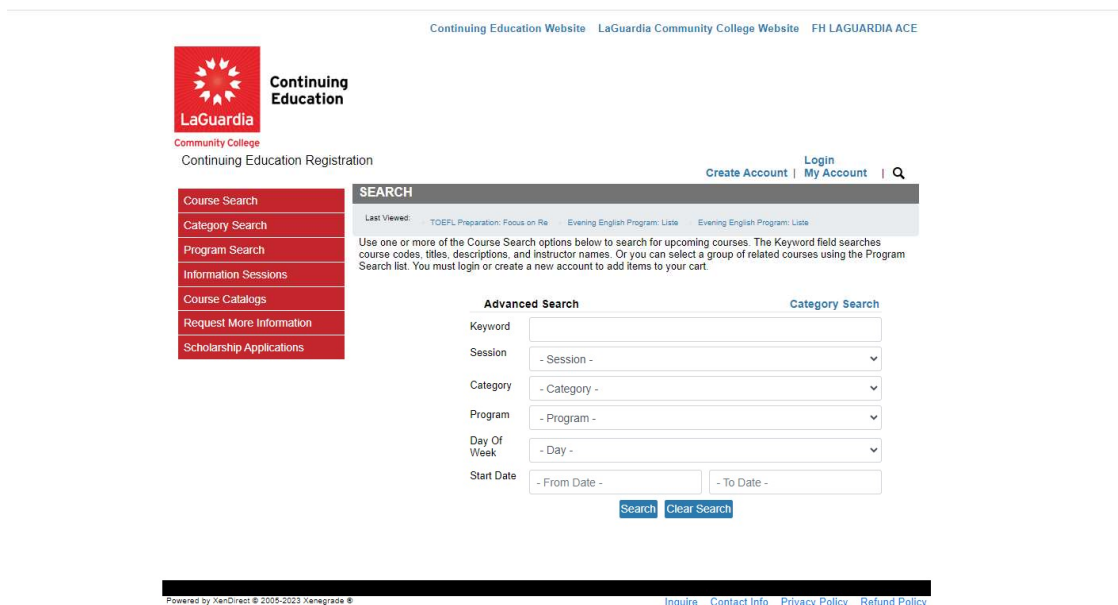

## 2. Xendirect Instructor Module (Quicktools):

Webpage:   https://quicktools.xendirect.com/laguardia/index.cfm

The Xendirect QuickTools module is designed to provide instructors and administrators with convenient and portable access to basic data, allowing them to view enrollment information across branches where the staff member is involved in teaching.

## 3. Xendirect Student Module (Webreg):

Webpage:   https://registration.xenegrade.com/laguardia/search.cfm

The Xendirect WebReg module provides an intuitive and accessible online registration system that allows students to easily browse available courses, register, and make payments directly through LaGuardia's website.
