Foundation Courses

- **English Composition I** (ENG101) – prerequisite for program courses
 - **General Psychology** (SSY101) – prerequisite for program courses*
 - **Introduction to Sociology** (SSS100) – prerequisite for program courses*
 - **Elementary Statistics I** (MAT120) – prerequisite for program courses*
 - **Health and Wellness** (SCH160)
 - **Community Health** (SCN195) – prerequisite for program courses
 - **Community Health Research** (SCN196) – prerequisite for program courses
- * 4 year programs in Public & Community Health often require these courses

Capstone Course

- The Health & Diversity course (SCH285) is the capstone course for the program and requires attending a weekly seminar, participating in discussions/experiential learning activities, completing major academic poster with oral presentation, and creating a professional ePortfolio.

Additional Program Requirements

- HIV/AIDS & Society** (SCN194) – suggested for many 4 year programs
- Public Speaking** (HUC106) – required by many 4 year programs
- Cultural Anthropology** (SSA101) – to build cultural competency
- Topics in Biology** (SCB101) – to build knowledge of biological function and interventions
- Public & Community Health Electives** – select based upon interest or transfer needs

When/Where To Apply To Transfer To Four Year Schools

- Students should begin thinking about transfer early
- The transfer process should begin in the next to last semester at LaGuardia
- In addition to transfer, 4 year programs in Public and/or Community Health may require a separate application; each school has its own requirements.

Advisement

- Seek Advisement from the Public & Community Health Program Director or member of the Public & Community Health Faculty at CHW@lagcc.cuny.edu
